

Manager's Corner

April 3, 2017

Dear Fountain View Lot Owners,

The Cable TV project has been completed as of 1 Apr. 2017. Some have noticed a significant different in their cable clarity. The reading on the taps have come up and to our surprise not too many bad cable. In hopes the cable issues have been resolved.

The Generators have come in and are being installed. The connections of propane will be installed soon.

The ceiling tile work will start on Apr. 10th and will have a dumpster will be placed at the club house, Fountain View Staff will remove lights and audio from the ceiling this week. Please do not dump you trash in the newly placed dumpster. If there is room when the contractors get done I will let you know you can dump. Please refrain from using it.

The web page is being updated and you will see the new doc's posted. Please dispose of any and all old Doc's. Copies will be given later this year when season begins as you check in upon request.

Have a safe and wonderful summer, see you in the fall.

Thank you for your support.

Kind Regards,

Keith S. Kazor LCAM

Property Manager
