

Manager's Corner

April 20, 2016

Dear Fountain View Lot Owners,

I hope everyone is well. I wanted to thank everyone for the effort in Hurricane Proofing the property before you left by putting loose items away. There were a couple little things left out but the staff took care of it. Thanks again, Good Job.

The staff has been working tirelessly on some of the Summer projects:

If you go to the website you will see on the front page "Managers Corner" pictures of the newly painted front office. The Staff did a great job.

Water Treatment Plant has multiple projects going on:

* Fountain View Staff has been replacing and repairing leaky water main valves throughout the property. These type of things we try to wait until most everyone is gone.

* NEC (Water Plant Contractor) is upgrading some of the wells by placing flow meters and control switches on the wells. This is required by the Lee County Health Department.

Managers House is completed.

Everything in the Managers House is up and running well, I will post some pic's soon. I wanted to thank Marie Mendall for all of her support on the design of the renovations. She did a great job.

Future Projects coming up:

* Cleaning and painting of the fountain at the clubhouse.

* Landscaping around the fountain.

* Adding and repairing catwalk in the water treatment plant and adding a emergency ladder.

Please keep an eye on the website and we will post pictures so you can see the happenings here at Fountain View.
