

Managers Corner

May 2017

Dear Fountain View Lot Owners,

I wanted to wish everyone a wonderful summer and give Members an update on the happenings here at Fountain View.

1. With the help of SIGFAS we have purchased bubbler system for Lake Erica. There will be 3 installed at the bottom of the lake to oxygenate the water from the bottom up. This will provide a better ecosystem for the fish and cut down on all of the algae balls we see.
2. The Generators are installed and waiting on the installation of the Propane lines and tank. Then we will be doing testing.
3. Clubhouse ceiling is completes and looks nice. I will be posting Pictures as well.
4. 2016-17 End of Year Financials have been mailed out and posted on the website, www.fountainviewrv.com, if you do not receive one please go to the website and update your information on the right side "Message Board" and then "Update Owners Data". Janice and I will receive that info and update our files.
5. The Sidewalk project, in front of Fountain View is almost completed. Once this is completed it will make it safe for all of our bikers and walkers.

Thank you for your support.

Kind Regards,

Keith S. Kazor LCAM

Property Manager
